

N-TEXX® Edge

Safety Data Sheet

SECTION 1: Identification

1.1. Identification

Product name: N-TEXX® Edge

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture: Intended as professional agricultural and horticultural soil inoculant or in some cases a microbial adjuvant.

1.3. Details of the supplier of the safety data sheet

CXI (Chem-X International, LLC)
1100 East Sandy Lake Road
Coppell, TX 75019

1.4. Emergency telephone number

Emergency number: 972-471-7775

SECTION 2: Hazard(s) identification

2.1. Classification of the substance or mixture

Classification (GHS-US)

Not classified

2.2. Label elements

GHS-US labeling

No labeling applicable

2.3. Other hazards

No additional information available

2.4. Unknown acute toxicity (GHS US)

Not applicable

SECTION 3: Composition/information on ingredients

3.1. Substance

Not applicable

3.2. Mixture

Name	Product identifier	%	Classification (GHS-US)
Aqueous culture of naturally occurring microorganisms in organically processed liquid including; <i>Pseudomonas putida</i> , <i>Pseudomonas alcaligenes</i> , <i>Pseudomonas fluorescens</i> , <i>Bacillus subtilis</i> , <i>Bacillus licheniformis</i> , <i>Bacillus pumilus</i> , <i>Acidovorax delafieldii</i>	None	100	Not classified

Full text of classification categories and H statements: see section 16

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures after inhalation	If exposure by inhalation is suspected, immediately move the exposed individual to fresh air. If individual experiences nausea, headache, dizziness, has difficulty in breathing or is cyanotic, seek a health care professional immediately.
First-aid measures after skin contact	Wash exposed area with plenty of soap and water. Repeat washing. Remove contaminated clothing and wash thoroughly before reuse. If irritation persists, consult a health care professional.
First-aid measures after eye contact	Flush immediately with copious amounts of tap water or normal saline (minimum of 15 minutes). Take exposed individual to a health care professional, preferably an ophthalmologist, for further evaluation.

N-TEXX[®] Edge

Safety Data Sheet

First-aid measures after ingestion

DO NOT INDUCE VOMITING. Rinse with copious amounts of water or milk, first. Irrigate the esophagus and dilute stomach contents by slowly giving one (1) to two (2) glasses of water or milk. Avoid giving alcohol or alcohol related products. In cases where the individual is semi-comatose, comatose or convulsing, DO NOT GIVE FLUIDS BY MOUTH. In case of intentional ingestion of the product seek medical assistance immediately; take individual to nearest medical facility. NOTE TO PHYSICIAN: No specific antidote is known. Probable mucosal damage may contraindicate the use of gastric lavage. Treat Symptoms.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation	None anticipated under normal product handling conditions.
Symptoms/injuries after skin contact	May cause moderate irritation.
Symptoms/injuries after eye contact	May cause irritation.
Symptoms/injuries after ingestion	May be harmful if swallowed.

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media	Use extinguishing media appropriate for surrounding fire.
Unsuitable extinguishing media	None.

5.2. Special hazards arising from the substance or mixture

Fire hazard	None known.
Explosion hazard	None known.

5.3. Advice for firefighters

Protection during firefighting	Firefighters should wear full protective gear.
--------------------------------	--

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

No additional information available

6.1.2. For emergency responders

No additional information available

6.2. Environmental precautions

Prevent entry to sewers and public waters.

6.3. Methods and material for containment and cleaning up

For containment	Stop the flow of material, if this is without risk.
Methods for cleaning up	Initially minimize area affected by the spill or leak. Block any potential routes to water system (e.g., sewers, streams, lakes, etc.). Based on the product's toxicological and chemical properties, and on the size and location of the spill or leak, assess the impact on contaminated environments (e.g. water systems, ground, air equipment, etc.). There are no methods available to completely eliminate any toxicity this product may have on aquatic environments. Minimize adverse effects on these environments. CXI can be contacted for technical assistance. Determine if federal, state and/or local release notification is required. Recover as much of the pure product as possible into appropriate containers. Later, determine if this recovered product can be used for its intended purpose. Address clean-up of contaminated environments. Spill or leak residuals may have to be collected and disposed of. Clay, soil or commercially available absorbents may be used to recover any material that cannot readily be recovered as pure product. Flushing residual material to an industrial sewer, if present at the site of a spill or leak incident may be acceptable if authorized approval is obtained. If product and/or spill/leak residuals are flushed to an industrial sewer, insure that they do not come into contact with incompatible materials. Contact the person(s) responsible for the operation of your facility's industrial sewer system prior to intentionally flushing or pumping spills or leaks of this product to the industrial sewer.

6.4. Reference to other sections

No additional information available

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling	Wash thoroughly after handling.
-------------------------------	---------------------------------

N-TEXX[®] Edge

Safety Data Sheet

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions

Keep/store only in original container. Store in a well-ventilated place. Keep container tightly closed. Do not store together with: Combustible substance, reducing agents. Best stored inside out of direct sunlight between 50°-90°F.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Humic acid (1415-93-6)

Not applicable

8.2. Exposure controls

Appropriate engineering controls

General (mechanical) room ventilation is expected to be satisfactory for normal handling.

Hand protection

Standard household rubber gloves are sufficient.

Eye protection

Wear safety goggles.

Skin and body protection

Wear long sleeved shirt and long pants as a precautionary measure.

Respiratory protection

If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	Liquid
Color	Dark brown
Odor	characteristic
Odor threshold	No data available
pH	8
Melting point	No data available
Freezing point	No data available
Boiling point	100 °C
Flash point	No data available
Relative evaporation rate (butyl acetate=1)	No data available
Flammability (solid, gas)	No data available
Vapor pressure	No data available
Relative vapor density at 20 °C	No data available
Relative density	No data available
Specific gravity / density	0.986 g/ml
Solubility	No data available
Log Pow	No data available
Auto-ignition temperature	> 600 °C
Decomposition temperature	No data available
Viscosity	No data available
Viscosity, kinematic	No data available
Viscosity, dynamic	No data available
Explosion limits	No data available
Explosive properties	No data available
Oxidizing properties	No data available

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

No additional information available

10.2. Chemical stability

The product is stable at normal handling and storage conditions.

N-TEXX[®] Edge

Safety Data Sheet

10.3. Possibility of hazardous reactions

Will not occur.

10.4. Conditions to avoid

None

10.5. Incompatible materials

None

10.6. Hazardous decomposition products

Not determined.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity	Not classified
Skin corrosion/irritation	Not classified pH: 8
Serious eye damage/irritation	Not classified pH: 8
Respiratory or skin sensitization	Not classified
Germ cell mutagenicity	Not classified
Carcinogenicity	Not classified
Reproductive toxicity	Not classified
Specific target organ toxicity (single exposure)	Not classified
Specific target organ toxicity (repeated exposure)	Not classified
Aspiration hazard	Not classified

SECTION 12: Ecological information

12.1. Toxicity

Material Tested	Species	LC50 (ppm)	Least to Most Toxic
N-TEXX [®] Edge	Menidia beryllina	552,762.06	1
	Mysidopsis bahia	353,302.46	2
No. 2 Fuel Oil	Menidia beryllina	10.22	4
	Mysidopsis bahia	2.11	5,6
N-TEXX [®] Edge & No. 2 FO	Menidia beryllina	12.54	3
	Mysidopsis bahia	2.11	5,6
Reference Toxicant: (Sodium Laurel Sulfate)	Menidia beryllina	11.87	
	Mysidopsis bahia	13.29	

12.2. Persistence and degradability

No additional information available

12.3. Bioaccumulative potential

No additional information available

12.4. Mobility in soil

No additional information available

12.5. Other adverse effects

Effect on the global warming No known effects from this product.

N-TEXX[®] Edge

Safety Data Sheet

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste disposal recommendations

Dispose of contents/container in accordance with local/regional/national/international regulations.

SECTION 14: Transport information

Department of Transportation (DOT)

In accordance with DOT

Not applicable

SECTION 15: Regulatory information

15.1. US Federal regulations

Humic acid (1415-93-6)

Listed on the United States TSCA (Toxic Substances Control Act) inventory

15.2. US State regulations

No additional information available

SECTION 16: Other information

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
